When the Plan Check Engineer has accepted your plans, you will get an automated email indicating that they have been accepted. At this point, the Permit Technician will enter the project into the permitting system, which generates a permanent number for tracking, and computes the plan check fees. The fees will be posted to the online site. From there you can select and pay fees online via credit card (fees less than or equal to \$2,000) or e-check (fees less than or equal to \$10,000). For projects with plan check fees in excess of \$10,000 you will need to come to the Building and Safety District Office that manages that location and pay the fees in person.

For fee due to Cities, you must pay those fees directly to the City or the District Office that services that city not online.

The system will now show you the fees that can be paid and allow you to select how to pay them, either by credit card (\$2,000 maximum) or by e-check (\$10,000 maximum). Amounts over \$10,000 must be paid by check, cash, or money order in person at the Building and Safety office responsible for the project location. You may not pay fees due to any of the contract cities we serve online.
