**\*\*\* FLOOR ALERT \*\*\***

TO: California State Senate Members

FROM: Los Angeles County Solid Waste Management Committee/  
Integrated Waste Management Task Force

**SUPPORT – SB 457 (AS INTRODUCED ON FEBRUARY 21, 2019) – BIOMETHANE:  
GAS CORPORATIONS**

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) **SUPPORTS** Senate Bill 457 (SB 457), Biomethane: Gas Corporations, as introduced on February 21, 2019.

If enacted, the proposed legislation would require the Public Utilities Commission (PUC) to extend a five-year monetary incentive program for the in-state production and distribution of biomethane from December 31, 2021 to December 31, 2026.

The Task Force strongly supports the proposed legislation because the PUC has already allocated the \$44 million for subsidizing biomethane interconnection and this bill would extend access to this important funding for getting renewable natural gas from solid waste to market.

As provided by AB 939 (1989) and Chapter 3.67 of the Los Angeles County Code, the Task Force is responsible for coordinating the development of major solid waste planning documents for Los Angeles County and the 88 cities in the County with a population of over ten million. The Task Force addresses issues impacting the solid waste management system on a countywide basis.

Based on the foregoing, the **Task Force strongly SUPPORTS SB 457 and requests your AYE vote on the bill.** If you have any questions, please contact Mr. Mike Mohajer, a member of the Task Force, at [MikeMohajer@yahoo.com](mailto:MikeMohajer@yahoo.com) or at (909) 592-1147.

cc: Senator Hueso
