2023-24 Budget Update

May Revise - \$308 billion total budget

- **Maintains 89% of the climate funding approved last year** (\$48 of \$54 billion approved for five years)
- **Maintains 89% (\$8.9 billion) of the funding for ZEV's and ZEV infrastructure**
- **Maintains \$11.6 billion for all transportation investments** that are consistent with state's climate goals
- **Restore \$25 million to Climate Catalyst Fund**
- **Maintains 95% (\$443 million) for Circular Economy**

Legislative Update

Bills for Consideration:

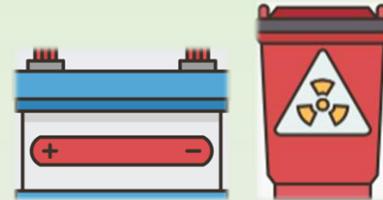

AB 1290 (Assembly member Luz Rivas)

- Banning specified toxic and non-recyclable plastics and plastic additives.

- **SB 615** (Senators Allen and Min)

- EPR for EV batteries

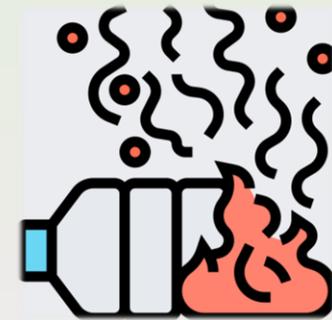

- **S. 1427, S. 1429, S. 1430, S. 1432, and S. 1433** (Senators Lummis)

- Protecting passive receivers of substances containing PFAS

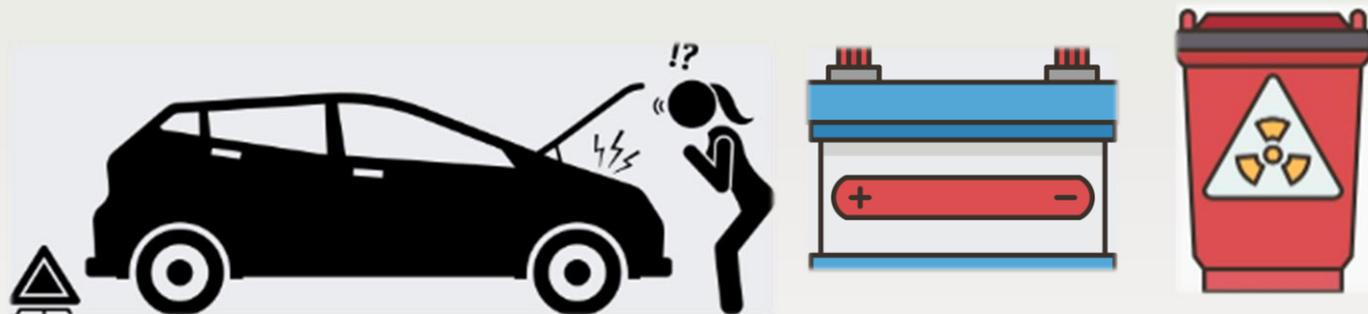

Assembly Bill 1290 (Luz Rivas) Product safety: plastic packaging: substances.

- Bans specified toxic and non-recyclable plastics and plastic additives.
- Aligned with TF Policy – Recommending consider “**Support**” as the bill would further ban these materials and additives.

Senate Bill 615 (Allen & Min) Vehicle traction batteries.

- Requires vehicle traction batteries also known as electric vehicle batteries to be recovered and reused, repurposed, or remanufactured and recycled at the end of their useful life.
- Partially aligned with TF Policy – Recommending consider “**Support if Amended**”
 - Establishes an EPR program to ensure proper end-of-life management of these batteries.
 - **Recommended Amendment:** Ensure program costs are fully covered by program operators, including vehicle or battery manufacturers, and are not passed on to local governments

S. 1427, S. 1429, S. 1430, S. 1432, & S. 1433

(Senators Lummis)

Resource Management PFAS Liability Protection Act of 2023.

- Ensures industries and municipalities are not subject to liability claims if the Environmental Protection Agency designates per- and polyfluoroalkyl substances (PFAS) compounds as hazardous substances.
- This bill is currently aligned with TF policy – Recommending consider “**Support**”
 - Protects passive receivers of substances containing PFAS that are ubiquitous in the water supply, wastewater treatment process, stormwater, biosolids management, and solid waste streams.

- Thank you for your time
